

This decision tree has been developed on the basis of directives of the RIVM (National Institute for Public Health and the Environment). It is a guideline for parents of child from about the age of 12 in secondary education, students in secondary vocational education and higher education, working youth and adult. With the help of this decision tree you will be able to determine whether or not you are allowed to go to school and/or work. This decision tree is based on people with normal health, without any underlying medical conditions. There is also a decision tree for children aged 0 up to and including children in group 8 of primary school. A Dutch version is also available.

The outcome of the decision tree is not valid for other members of the household, family members, brothers or sisters. The decision tree needs to be followed separately for each individual.

This decision tree is regularly updated on the basis of new or renewed regulations. For the most recent version please check the website of AJN Jeugdartsen Nederland (AJN Youth Doctors Netherlands): www.ajnjeugdartsen.nl.

IMPORTANT NOTICE
Follow the decision tree from top to bottom. Start with the first question and follow the questions in the prescribed sequence.

1.5 METRES DISTANCE?
- 13 to 18 years of age: no (no distancing required to others in this age group) yes (to adults)
- secondary vocational education and higher education (MBO/HBO/university): yes
- adults: yes

*** 12 YEARS AND UP**
- students in secondary education (including younger children in the first year of secondary school)
- students in secondary vocational education (MBO)
- students in higher education (HBO and university)
- working youth
- adults

TEST RESULTS
In all cases, follow the advice of the GGD (Municipal Health Services). Generally applies:

Positive
Yes, you or a member of your household have been infected with the corona virus. Follow the instructions of the GGD (Dutch Public Health Service).

Negative
No, you have not been infected with the corona virus. You are allowed to go to school or work again, even if not all symptoms have disappeared yet. Unless you are still in a quarantine period.

HOW LONG SHOULD YOU STAY AT HOME?
How long this will take and what the rules are depends on the situation. Follow the advice of the GGD (Municipal Health Services). Please check the website of the Dutch Central Government on "Self-quarantine (staying at home) due to coronavirus"

**** COMPLAINTS FITTING COVID-19/CORONA**
= nasal cold, runny nose, sneezing, throat ache, coughing, tightness of the chest, low-grade or high-grade fever, sudden loss of smell and/or taste (without nasal congestion).

Do you have any questions or confusion after following the decision tree? Please contact your regional GGD (Dutch Public Health Service). You can also call the national information number coronavirus of the Dutch government: 0800-1351 (free of charge, 08:00 – 20:00 hours).
